1-1/2" - 3" Hose Size

SAFETY PRECAUTIONS

- > Pressured media creates hazardous conditions. The hoses can separate with explosive force.
- > 150 PSI maximum recommended operating pressure.
- > Use Safety Clips or wire in holes provided on each coupling.
- > Use Safety Cables to tie-off hose ends to guard against accidental separation of lines and to prevent whipping or bucking of the hose.
- > Couplings, gaskets and clamps should be frequently checked for excessive wear and replaced when necessary.
